

STATEMENT

A team needs a team leader.

STATEMENT

A team must always take into account the personalities of its members.

STATEMENT

An interprofessional meeting is only successful if consensus has been reached.

STATEMENT

The main purpose of an interprofessional meeting is to organize cooperation.

STATEMENT

An interprofessional meeting takes too much valuable time.

STATEMENT

Each care receiver should be discussed during an interprofessional meeting.

STATEMENT

Patient/client-centered means that the care receiver and his family are always present during an interprofessional meeting.

STATEMENT

Patient/client-centered means that sometimes decisions are made that go against the values and norms of the health care provider.

STATEMENT

To organize an interprofessional meeting, you must have thorough knowledge of the other disciplines.

STATEMENT

An interprofessional meeting should take place once a week.

STATEMENT

Technological agility is teachable to everyone.

STATEMENT

Technological agility is only possible if there is access to a Wi-Fi network.

STATEMENT

Every employer should give time for in-service training on technological agility.

STATEMENT

Healthcare technology is too expensive.

STATEMENT

Applying healthcare technology works to reduce work pressure.

STATEMENT

Healthcare technology is a form of restriction of freedom.

STATEMENT

Healthcare technology provides data. Everyone must have access to this data.

STATEMENT

The organization I work in is innovative in terms of healthcare technology.

STATEMENT

I am keeping up with the latest trends in healthcare technology.

STATEMENT

I use little to no healthcare technology.

STATEMENT

Everyone can think out-of-the-box.

STATEMENT

Innovation costs a lot of money.

STATEMENT

In innovation, there are always disadvantages for someone.

STATEMENT

I easily adapt to a situation.

STATEMENT

I see changes as an opportunity.

STATEMENT

I dare to deviate from normality.

STATEMENT

I am open to feedback.

STATEMENT

You execute an innovative idea thoughtfully.

STATEMENT

Everyone should be an intrapreneur.

STATEMENT

I know how to give feedback.

STATEMENT

Ethics in healthcare is useful.

STATEMENT

If the care receiver is not in a position to make a decision, the interprofessional team is responsible to do so.

STATEMENT

As a team, we don't think enough about ethical dilemmas.

STATEMENT

To act ethically as a healthcare professional, you must set goals for the care receiver.

STATEMENT

To act ethically you must put the possibilities of care above the wishes of the care receiver.

STATEMENT

Good care is providing care as I would want to receive it myself.

STATEMENT

I accept a gift from a care receiver.

STATEMENT

Feelings of antipathy towards a care receiver are allowed.

STATEMENT

Good care means:
going to the extreme for your care receiver.

STATEMENT

Telling something personal about yourself from time to time helps to create a better bond with your care receiver.
